

JOB ANOUNCEMENT!

20 July 2005

Natural Resource Specialist GS-401-9/11 AKA Ecologist
Land Management Branch, Marine Corp Base Camp Pendleton, CA

1. This position is with the Department of Defense, Marine Corps Base. It is being advertised as a Resource Specialist; the duties reflect those of an ecologist. All work on Camp Pendleton is conducted by contracts; therefore contract administration skills are essential. Applicant should have understanding and experience in:
2. Habitat restoration particularly in: riparian, perennial grassland, and coastal sage scrub vegetation communities. Position oversees habitat restoration mitigation and stewardship contracts.
3. Vegetation classification systems and methodologies.
4. Vegetation community mapping and monitoring.
5. Aerial photo acquisition.
6. Federally listed and rare plant management, including inventory and monitoring methods, both field and in GIS data tracking.
7. Endangered Species Act, Clean Water Act, and National Environmental Policy Act.
8. Natural resource management as it relates to multiple use of resources (military training) while sustaining base ecosystems.
9. ESRI Geographical Information Systems geodatabase development and management.
10. This position will be advertised BRIEFLY on USA JOBS <http://www.usajobs.opm.gov/> within the next 60 days. Posting your resume on-line prior to advertisement is suggested.
11. All qualified applicants are encouraged to apply!
12. If you have any questions, please call Deborah Bieber, Land Management Branch Head at (760) 725-9728 or e-mail at deborah.bieber@usmc.mil.
