

FRIDAY SEMINAR
At the Everglades Research and Education Center
March 5, 2010
10:45 a.m.

Dr. Bill Kern, Associate Professor

UF/IFAS Dept. of Entomology and Nematology

Fort Lauderdale REC

“South Florida: Land of Invasive Animals”

Bill Kern's areas of expertise are Urban Entomology, Africanized Honey Bee Management, Vertebrate Pest Management, Nuisance Wildlife Management, and Medical / Veterinary Entomology. He provides training for Florida Cooperative Extension Service personnel and the Pest Control Industry in the areas of urban entomology and urban pest management.

He also provides programmatic support for County faculty of the Florida Cooperative Extension Service. Dr. Kern teaches several courses on insects, urban pests, and medical and veterinary entomology. More information about these courses may be found at the Ft. Lauderdale REC website (<http://flrec.ifas.ufl.edu/>).

Seminars are free and the public is always welcome to attend.
