GSCC Awards

Application open for three categories

1

Conserved the rarest species

Has your garden banked the rarest or most threatened species?

Are there few individuals of the species left in the wild? Is the species threatened by climate change, invasive species or habitat destruction? Did you find a species previously thought to be extinct? Is it the rarest species for another reason? [Let us know!](#)

2

Conserved the most difficult to collect

Has your garden banked the most difficult to collect species?

Was your species found on top of a mountain, in the middle of a desert, in the depths of a forest? Does it fruit infrequently? Are the seeds hard to collect? Was it difficult to find? Was it difficult to collect for another reason?

[Let us know!](#)

3

Conserved the most useful species

Has your garden banked the most interesting useful species?

Is your species a crop wild relative? Is it edible? Is it medicinal? Is it a food source for wildlife? Is it a timber species? Is it a keystone of the ecosystem? Is it useful for another reason? [Let us know!](#)
