

Pollinator Partnership and Project Wingspan are proud to present

Native Pollinator and Habitat Technical Training Workshop Series

This 5-part workshop series includes:

**WS 1: Ecology of Native Pollinators
and Grassland Species of Concern**

**WS 2: Bridging Scientific Research to
Applied Management Practices**

**WS 3: Restoration Project Planning
and Site Preparation**

WS 4: Project Implementation

**WS 5: Habitat Management and
Monitoring**

The suggested audience includes former, current, and potential future conservation practitioners and partners.
