

Southwest Conservation Corps is looking for you!

Ecological Monitoring Crews:

Help monitor the condition and trend of our vegetative resources from the local to landscape level.

Work with Bureau of Land Management staff and a small, field-based crew.

Crew Leader and Crew Member positions available.

Accepting applications and hiring now!

Locations: Multiple, across Colorado and New Mexico

The Experience:

- Botanical identification, soils identification, data management, exploring public lands
- Paid training, Americorps Education Award (crew members), and upon the completion of 900 hrs, members will receive a two year non-competitive hiring status for land based government positions
- Remote driving, hiking, and camping

Opportunities to work on Conservation Corps
Small Teams
